

MSCAA Taxiway Victor Memphis International Airport

Memphis, Tennessee

FISHER ARNOLD

PROJECT EXPERIENCE

Fisher Arnold provided design, construction drawings and specifications for Taxiway Victor from Taxiway Sierra to Taxiway V2 constructed during 2011 for the Memphis-Shelby County Airport Authority (MSCAA). This project consisted of the relocation and profile adjustment to 5,700 feet of existing Taxiway that parallels Runway 9-27. Services provided included pavement design, grading and drainage, phasing plans to coordinate with FedEx Operations, Signing, Pavement Markings, and Lighting for this 75-foot width Taxiway.
