

City of Millington Southside Sports Complex Millington, Tennessee

FISHER ARNOLD

PROJECT EXPERIENCE

The City of Millington is expanding their park facilities to include three softball fields, a basketball court, a sand volley ball court, walking trails, and a playground. This expansion is being funded in part by a Community Development Block Grant. The proposed improvements will be phased and built over a three-five year time frame. Fisher Arnold prepared conceptual plans for city and community input, developed final construction plans, assisted with the bidding process, and conducted site inspections for this project.
