

Shelby Residential and Vocational Services (SRVS)

Memphis, Tennessee

PROJECT EXPERIENCE

SRVS is a non-profit agency that helps individuals with disabilities to achieve their own dreams and maximize their potential. SRVS helps disabled individuals develop skills that best suit their abilities and assists them to be able to contribute to the development of the community. Special programs are available for job training, recreational development and the growth of sensory skills needed for everyday life. Fisher Arnold transformed the existing site with deteriorating buildings, crumbling parking areas and declining landscaping into a vibrant campus for the patrons of this facility. This transformation is representative of the lives that are transformed through the SRVS training. Features that were incorporated into this campus are outdoor sensory garden with water, pervious pavers, raised planters for garden demonstrations, walking trail, and landscape improvements including plant identification and exercise stations. Coordination between the various departments within SRVS was instrumental in the development of this campus plan.
