

TDOT SR-14 CEI Services

Shelby County, Tennessee

FISHER ARNOLD

PROJECT EXPERIENCE

Fisher Arnold was selected by TDOT to provide CEI services for the SR-14 project from Old Covington Pike to SR-385 in Shelby County. This 3.8 mile project consists of the improvements from a two-lane rural section to a five-lane section with 10-foot stabilized shoulders. The project includes five (5) bridge structures, over 300,000 cubic yards of embankment, traffic signals, and natural stream construction. Fisher Arnold is the Prime CEI Consultant responsible for all inspection and administration services for the project.
