

# DO YOU APPRECIATE THE DETAILS?

## Environmental Technician - Memphis, TN Full-Time Full-Time - Salary Commensurate with Experience

Are you experienced in the environmental field and looking for a new opportunity to utilize your knowledge and expertise? Enjoy working autonomously and decisively in your area of specialization while identifying and solving problems? If you answered "Yes!" to the questions above, you may be exactly what we have been looking for!

We are searching for an Environmental Technician for our headquarters in Memphis, TN to support our Environmental Department. Responsible for the performance of tasks associated with industrial plant environmental duties, soil and groundwater sampling, asbestos and lead sample collection, site remediation tasks equipment decontamination and handling of hazardous materials, you must be able to work at times with little or no supervision. Periodic travel to other company offices is required.

Headquartered in Memphis Tennessee, we are a leading multi-disciplined firm that includes engineers, architects, planners, landscape architects, environmental scientists, surveyors, engineering technicians, CADD technicians, and construction observers. We have a solid reputation providing services to a diverse list of public and private clients, with branch offices in Chattanooga, Knoxville and Nashville, TN, Houston, TX, Indianapolis, IN, Jonesboro, AR, and Chipley, FL.

**Fisher Arnold is an Equal Opportunity Employer and we require all our new team members to work in a drug free environment and submit to an initial screening and background security check.**

**Benefits:** We offer a competitive benefits package including:

- 401(k) with Company Match
- Health, Dental & Vision Insurance
- 160 Hours Annual Paid Time Off
- 9 Annual Paid Holidays
- Flexible Work Week
- Employee Assistance Programs
- Flexible Spending Account
- Life insurance

### **Essential Duties and Responsibilities:**

- Supports local industry with plant clean-up, documentation, and as assigned environmental duties
- Operation and maintenance of treatment systems involving mechanical, flow, and operational troubleshooting
- Collecting and analyzing water samples following a specific SOP
- Collecting and recording operational data from unit instrumentation and sample analysis
- Preparing written reports and records as required
- Monitoring operating conditions and notifying supervisors when maintenance and repair work is needed
- Monitoring chemical and equipment inventories
- Performing preventative maintenance on equipment and general housekeeping in plant
- Performing groundwater system maintenance at UST and other remediation sites
- Assists in field sampling activities and calibration of meters

### **Qualification and Experience Requirements:**

- One (1) year of industry-related experience including installing and operating groundwater treatment systems
- High school diploma or equivalent required
- 40 Hour OSHA HAZWOPER Training
- Valid driver's license required as a continuing condition of employment (see next page also)
- Knowledge of RCRA and DOT requirements/regulations and chemicals
- Knowledge of EPA waste codes, manifesting and Land Disposal Restrictions preferred
