

PG IN TN? WE NEED YOU!

Senior Environmental Geologist - Knoxville, TN Full-Time - Salary Commensurate with Experience

Do you enjoy managing specialized work efficiently, with confidence and competence? Pride yourself in an above average attention to detail, concern for exact correctness and strong commitment to meeting deadlines? If you answered "Yes!" to the questions above, you may be exactly what we have been looking for!

We are searching for a Senior Environmental Geologist for our office in Knoxville, TN to support our Environmental Department. If you are looking to join a firm where you will have client, regulatory agency, and contractor interaction, with the enthusiasm necessary to develop opportunities and grow our expanding client base, we may be a perfect fit. Some travel is required to visit sites and perform project work, as well as to other company offices when needed.

Headquartered in Memphis Tennessee, we are a leading multi-disciplined firm that includes engineers, architects, planners, landscape architects, environmental scientists, surveyors, engineering technicians, CADD technicians, and construction observers. We have a solid reputation providing services to a diverse list of public and private clients, with branch offices in Chattanooga, Knoxville and Nashville, TN, Houston, TX, Indianapolis, IN, Jonesboro, AR, and Chipley, FL.

Fisher Arnold is an Equal Opportunity Employer and we require all our new team members to work in a drug free environment and submit to an initial screening and background security check.

Benefits: We offer a competitive benefits package including:

- 401(k) with Company Match
- Health, Dental & Vision Insurance
- 160 Hours Annual Paid Time Off
- 9 Annual Paid Holidays
- Flexible Work Week
- Employee Assistance Programs
- Flexible Spending Account
- Life insurance

Essential Duties and Responsibilities: as a professional with a combination of technical, managerial, and customer service skills, you will perform duties including:

- Oversee environmental field data collection and complete actual field work as needed
- Oversee Underground Storage Tank work in Tennessee and adjacent states
- Complete project documentation and technical reports
- Perform project research and development
- Supervise staff of up to four (4) technicians, specialists and junior geologists
- Assist with schedules, scopes, cost estimates, etc.

Qualification and Experience Requirements:

- Professional Geologist (PG) with a minimum of five (5) years of environmental consulting industry work experience
- Registered in Tennessee with the ability to register in multiple states including NC, GA, AR, MS, AL, and others
- Must have prior soil gas and groundwater environmental investigation project experience
- Must have strong proven technical report writing skills
- Experience overseeing environmental project consultants and subcontractors
- Current 40 Hour HAZWOPER with up-to-date 8-hour refresher preferred
- Direct experience in remedial projects such as soil removal actions, groundwater and vapor intrusion mitigation
- Knowledge of work in Tennessee UST and Drycleaner Programs
- Other skills including proposal development, presentations and client development are required

The Physical Demands and Work Environment of a Senior Environmental Geologist are challenging and dynamic. For more information please see the next page of this description.

HOW TO APPLY:

Send your cover letter and resume in PDF format to careers@fisherarnold.com with "Senior Environmental Geologist Knoxville" as the Subject Line. Cover letters will be evaluated as a writing sample and should include salary requirements. All correspondence regarding your application should be transmitted via email; no phone calls please. We look forward to hearing from you!

Senior Environmental Geologist - Knoxville, TN

Full-Time - Salary Commensurate with Experience

Physical Demands: this position requires:

- Constant physical effort in diverse weather conditions, including standing or sitting for extended periods of time, stooping, bending, and crouching during a regular work shift of at least nine (9) hours per day
- Ability to lift and carry, on a frequent basis, at least 50-90 pounds personally
- Pushing/pulling, carrying, grasping, reaching, crawling, stooping, and crouching in confined spaces
- Walking, climbing, speaking, listening, color determination and clarity of vision of at least 2 feet or more (with or without lenses)
- The ability to properly wear and use personal respirator equipment and other forms of personal protective equipment (PPE) including levels A, B, C and D & E, including respirators, skin, face, hand and foot protection in a multiple number of combinations, and full encapsulation PPE suits which can elevate body temperature substantially during physical exertion, if required
- Operating light equipment including, but not limited to, pumps, vacuum equipment, oil spill boom, forklift, air compressors, and generators
- Handling various hand tools and powered (pneumatic and electrical, hydraulic) industrial tools, including pressure washers and saws
- Climbing ladders, scaffolding, and into and out of trucks, tanks

Work Environment: the work environment characteristics described below are representative of those than a Senior Environmental Geologist encounters while performing the essential functions of this position:

- Ensuring Health and Safety is the number one goal by following policies, processes, procedures, and acting in a safe manner at all times
- Working in various temperatures indoors and outdoors in all weather conditions; including extreme heat and cold while wearing various levels of personal protective equipment
- Working in atmospheres and locations with the potential for exposure to various chemicals and physical agents, some of which may be hazardous, toxic or corrosive
- Working in potentially elevated noise levels, confined spaces, including lifting in areas of low clearance
- Working at elevations including working from ladders and scaffolding
- Working extended (>8 hrs.) time periods outdoors, periodically nights and weekends may be required
