

# SICK OF WORKING INSIDE ALL DAY?

## Survey Instrument Technician - Memphis, TN Full-Time from \$20/hr

Not interested in a desk job, or spending all day inside? Would you rather be outside, visiting different sites, learning new skills and applying them in real world situations? No experience in surveying? That's OK, if you have a preference for detailed, skill-based work and are eager to learn, we will provide all the on-the-job training you need!

We are searching for a Survey Instrument Technician for our headquarters in Memphis, TN to support our Surveying Department. Highly precise in nature, the duties of a Survey Instrument Technician require a very strong attention to detail to produce high quality work with correct results, time after time. If you are a thorough, patient and consistent worker, that enjoys an environment where instructions and expectations are clear, you could be a valuable addition to our team.

Headquartered in Memphis Tennessee, we are a leading multi-disciplined firm that includes engineers, architects, planners, landscape architects, environmental scientists, surveyors, engineering technicians, CADD technicians, and construction observers. We have a solid reputation providing services to a diverse list of public and private clients, with branch offices in Chattanooga, Knoxville and Nashville, TN, Houston, TX, Indianapolis, IN, Jonesboro, AR, and Chipley, FL.

**Fisher Arnold is an Equal Opportunity Employer and we require all our new team members to work in a drug free environment and submit to an initial screening.**

**Benefits:** We offer a competitive benefits package including:

- 401(k) with Company Match
- Health, Dental & Vision Insurance
- 160 Hours Annual Paid Time Off
- 9 Annual Paid Holidays
- Flexible Work Week (Half-Days Fridays)
- Employee Assistance Programs
- Flexible Spending Account
- Life insurance

**Essential Duties and Responsibilities:** you will assist the Survey Party Chief in completion of survey and construction staking projects. This includes, but is not limited to, learning the survey trade to gain a full understanding of the necessary equipment, technology, software and field work, while:

- Working with individual or multiple survey crews in various environments
- Ability to understand work directions and communicate effectively with job site supervisors and fellow employees
- Performing all work in a safe manner and obeying all safety regulations
- Continually advancing in knowledge of upgrades in technology and equipment
- Uploading and downloading of data collectors on a daily basis
- Transporting, carrying, charging and care of survey instruments
- Ensuring that survey vehicle is loaded, stocked and cleaned before and after each use
- Demonstrating progression towards skills required for Party Chief and Professional Land Surveyor positions

**Qualification and Experience Requirements:** This position is an entry-level job with no previous experience as an Instrument Technician required - we will fully train the successful candidate. One (1) year or more experience related to the survey or construction industries (roads, highways, bridges) is preferred but not required. A high school diploma or general education degree (GED) is preferred.

**The Physical Demands and Work Environment of a Survey Instrument Technician are challenging and dynamic. For more information please see the next page of this description.**

### HOW TO APPLY:

Send your resume in PDF format to [careers@fisherarnold.com](mailto:careers@fisherarnold.com) with "Survey Instrument Tech Memphis" as the Subject Line. All correspondence regarding your application should be transmitted via email; no phone calls please. We look forward to hearing from you!

# Survey Instrument Technician - Memphis, TN

## Full-Time from \$20/hr

**Physical Demands:** this position requires:

- Constant physical effort, including standing for extended periods of time, stooping, bending, and crouching during a regular work shift of at least nine (9) hours per day
- Ability to lift and carry, on a frequent basis, at least 50-90 pounds personally, and up to 150 pounds with assistance
- Maintaining constant alertness to the multiple concurrent activities of the construction site, including the activities of other employees and contractors, the operation of stationary equipment, and the movement of mobile equipment
- Frequently walking on uneven surfaces, including natural ground in varying weather conditions
- Capability to become certified to enter confined spaces, including climbing into and out of excavations up to 15 feet in depth, using ladders or crawling, as required
- Ability to maintain balance while working on watercraft or other surfaces
- Ability to climb on and off heavy mobile equipment safely

t

**Work Environment:** the work environment characteristics described below are representative of those that an Instrument Technician encounters while performing the essential functions of this position:

- Work is performed outdoors in all weather conditions
- The work environment periodically exposes employees to high levels of noise, grease, and dust that is typically associated with a construction project
- Employees work near heavy equipment and moving machinery
- Employees work in close proximity to high volumes of fast-moving traffic
- Work may involve a variety of substances commonly found on construction sites such as form oil, curing compounds, gasoline, diesel fuel, and ready-mixed concrete
