

# ADVOCATE FOR ACCURACY?

## Registered Land Surveyor - Memphis, TN Full-Time - Salary Commensurate with Experience

Do you have a proficient knowledge of surveying, and construction layout with an emphasis on roads, highways and bridges? Do you enjoy using your professional and technical skills in the office and field? If you answered "Yes!" to the questions above, you may be exactly what we have been looking for!

We are searching for a Registered Land Surveyor for our headquarters in Memphis, TN to support our Surveying Department. Requiring precise, deliberate and detailed work, you will plan and evaluate proposed field survey projects, research property history, and compile information gathered in the field through data collection for a variety of clients. You will have the opportunity to work with crews, projects, and clients within a stable, team-oriented environment.

Headquartered in Memphis Tennessee, we are a leading multi-disciplined firm that includes engineers, architects, planners, landscape architects, environmental scientists, surveyors, engineering technicians, CADD technicians, and construction observers. We have a solid reputation providing services to a diverse list of public and private clients, with branch offices in Chattanooga, Knoxville and Nashville, TN, Houston, TX, Indianapolis, IN, Jonesboro, AR, and Chipley, FL.

**Fisher Arnold is an Equal Opportunity Employer and we require all our new team members to work in a drug free environment and submit to an initial screening.**

**Benefits:** We offer a competitive benefits package including:

- 401(k) with Company Match
- Health, Dental & Vision Insurance
- 160 Hours Annual Paid Time Off
- 9 Annual Paid Holidays
- Flexible Work Week (Half-Days Fridays)
- Employee Assistance Programs
- Flexible Spending Account
- Life insurance

**Essential Duties and Responsibilities:** you will perform duties that include:

- Daily coordination with field personnel, project managers and other staff
- Prepare survey cost proposals that include scope of work and associated fees
- Prepare survey data, drawings, plats, descriptions from information gathered in the field and office
- Work closely and communicate well with project managers and clients
- Manage equipment needs for maintenance, replacement or addition of new equipment as needed
- Perform complex surveying calculations using various calculations, software and computing methodologies
- Prepare finished grade sheets, topographic maps, records of survey, ALTA surveys, corner staking, etc.
- Research existing record information, including maps, plans, deeds, easements, right of way documents, etc.
- Continual advancement of technical knowledge with upgrades in technology and equipment

**Qualification and Experience Requirements:**

- Ten (10) years' demonstrable experience in the surveying field
- Licensed Land Surveyor with the ability to become registered in Tennessee and neighboring states
- Knowledge of preparing boundary surveys, processing field data, CADD, and writing legal descriptions
- Appreciation for the importance of working within a safe manner, obeying all safety regulations
- Ability to manage crews, assign work, prepare survey proposals and work with various project managers
- Ability to utilize various softwares to provide accurate survey data, drawings, plats, and descriptions

**The Physical Demands and Work Environment in the field of a Registered Land Surveyor are challenging and dynamic. For more information please see the next page of this description.**

# Registered Land Surveyor - Memphis, TN

## Full-Time - Salary Commensurate with Experience

**Physical Demands:** this position requires work in both the office and in the field. It includes::

- Physical effort, including standing for extended periods of time, stooping, bending, and crouching during a regular work shift of at least nine (9) hours per day
- Ability to lift and carry, on a frequent basis, at least 50-90 pounds personally, and up to 150 pounds with assistance
- Maintaining constant alertness to the multiple concurrent activities of the construction site, including the activities of other employees and contractors, the operation of stationary equipment, and the movement of mobile equipment
- Frequently walking on uneven surfaces, including natural ground in varying weather conditions
- Capability to become certified to enter confined spaces, including climbing into and out of excavations up to 15 feet in depth, using ladders or crawling, as required
- Ability to maintain balance while working on watercraft or other surfaces
- Ability to climb on and off heavy mobile equipment safely

**Work Environment:** the work environment characteristics described below are representative of those that a Registered Land Surveyor encounters when required to be in the field to perform the essential functions of this position:

- Work is performed outdoors in all weather conditions
- The work environment periodically exposes employees to high levels of noise, grease, and dust that is typically associated with a construction project
- Employees work near heavy equipment and moving machinery
- Employees work in close proximity to high volumes of fast-moving traffic
- Work may involve a variety of substances commonly found on construction sites such as form oil, curing compounds, gasoline, diesel fuel, and ready-mixed concrete
