

# Project Engineer Land Development - Memphis, TN

## Full-Time - Competitive Salary Based on Experience

We are searching for a Project Engineer in our Land Development department for our office in Memphis, TN. The position will report to the Director of Land Development and involve all aspects of site engineering design and plans production related to land development. This individual will be part of team that has a focused commitment on ensuring that tasks are completed with quality and on time to ensure delivery of solutions for our clients and communities. Through on-going project involvement, direction, training and support this position will allow for utilization and further enhancement of the skills and expertise involved in all aspects of site engineering.

Headquartered in Memphis Tennessee, we are a leading multi-disciplined firm that includes engineers, architects, planners, landscape architects, environmental scientists, surveyors, engineering technicians, CADD technicians, and construction observers. We have a solid reputation providing services to a diverse list of public and private clients, with branch offices in Chattanooga, Knoxville and Nashville, TN, Houston, TX, Indianapolis, IN, Jonesboro, AR, and Chipley and Tallahassee, FL.

**Fisher Arnold is an Equal Opportunity Employer and we require all our new team members to work in a drug free environment and submit to an initial screening.**

**Benefits:** We offer a competitive benefits package including:

- 401(k) with Company Match
- Health, Dental & Vision Insurance
- 160 Hours Annual Paid Time Off
- 9 Annual Paid Holidays
- Flexible Work Week (Half-Days Fridays)
- Employee Assistance Programs
- Flexible Spending Account
- Life insurance

### **Essential Duties and Responsibilities:**

- Perform design related to Land Development projects consisting of single-family residential developments, multi-family residential developments, commercial, industrial and institutional sites, and mixed-use developments, including, but not limited to, site layout, grading and drainage, EPSC, sanitary sewer collection, water distribution, traffic control and roadways
- Produce construction plans for land development projects, and work with team to obtain approvals from jurisdictional activities
- Perform hydrologic/hydraulic analysis for the design and construction plan production for site development, storm water infrastructure improvements, transportation and other projects involving complex drainage analysis and/or design.
- Drainage design including, but not limited to, storm water conveyance systems, detention/retention facilities, water quality systems, open channel improvements, grade control structures, bridge scour protection, and channel bank stabilization.
- Technical report writing

### **Qualification and Experience Requirements:**

- Bachelor's degree in Civil Engineering from ABET accredited University required (Master's degree preferred)
- Professional Engineer licensed in the State of Tennessee, or the ability to become licensed within one (6) months
- Minimum three (3) years of responsible experience in performing land development design and plans production
- Knowledge of Autodesk Civil3D (advanced) and ArcGIS
- Strong attention to detail, highly organized work ethic
- Strong technical writing and computer (Microsoft Office with an emphasis on Word and Excel) skills

## **HOW TO APPLY:**

**Send your cover letter and resume in PDF format to [careers@fisherarnold.com](mailto:careers@fisherarnold.com) with "Project Engineer Land Development Memphis" as the Subject Line. All correspondence regarding your application should be transmitted via email; no phone calls please. We look forward to hearing from you!**
