

ARE YOU HIGHLY MOTIVATED?

Environmental Geologist & Industrial Compliance Specialist - Memphis, TN Full-Time

Are you an independent and precise environmental professional who enjoys detail-oriented tasks? Do you have good communication and technical writing skills, along with the enthusiasm to manage complex projects and demanding schedules? If so, this may be your new opportunity for the new year!

Fisher Arnold is a multi-disciplinary firm and regional leader in professional environmental services, is seeking a highly motivated and skilled Environmental Geologist and Industrial Compliance Specialist. This position offers a unique opportunity for a dynamic professional to contribute to the growth and development of our rapidly expanding department of environmental experts. Join our team and play a pivotal role in delivering outstanding services to our diverse client base.

Fisher Arnold is an Equal Opportunity Employer and we require all our new team members to work in a drug free environment and submit to an initial screening and background security check.

We Offer

- 401(k) with Company Match
- 160 Hours Annual Paid Time Off
- Medical, Dental, Vision, & Life Insurance
- Flexible Spending Account & Health Savings Account
- Half-day Fridays
- Opportunities for professional growth & advancement
- A collaborative & supportive work environment
- Exposure to diverse projects & industries

Key Responsibilities

- Conduct industrial hygiene assessments, including air quality monitoring, noise surveys, and exposure assessments for various contaminants.
- Develop and implement effective occupational health and safety programs and compliance strategies.
- Perform environmental geological investigations, including soil and groundwater sampling, hydrogeologic studies, remediation oversight, Phase I and Phase II Environmental Site Assessments (ESAs), site characterization, stormwater, and SPCC reports, and lead-based paint projects.
- Support industrial air permitting and compliance processes, ensuring adherence to local, state, and federal regulations.
- Analyze data, provide project documentation, and prepare annual waste reporting and client support in compliance with regulatory requirements.
- Provide consultation and advice to clients on environmental and occupational health matters, including air quality management.
- Collaborate with clients, potential clients, and cross-functional teams on complex projects, ensuring high-quality outcomes.
- Stay abreast of emerging industry trends, technologies, and regulations in industrial hygiene, environmental geology, and air quality management.
- Some travel is required to support environmental projects in the Southeast US.

Qualifications

- Bachelor's or Master's degree in Industrial Hygiene, Environmental Science, Geology, or a closely related field.
- Certification as a Professional Geologist (PG) is preferred.
- Minimum of 5 years of experience in industrial compliance work and environmental geology, preferably in a consulting environment.
- Current 40-hour HAZWOPER preferred.
- Strong analytical, problem-solving, and project management skills.
- Excellent communication and interpersonal skills, with an ability to work effectively with clients and multidisciplinary teams.
- Proficiency in relevant software and technical tools.

HOW TO APPLY:

To apply, please submit your resume and a cover letter outlining your experience and why you are the perfect fit for this role. Applications should be sent to careers@fisherarnold.com.
