

ELECTRICAL DESIGNER

Fisher Arnold, a leading multi-disciplined firm that includes engineers, architects, planners, landscape architects, environmental scientists, surveyors, engineering technicians, CADD technicians, and construction observers is seeking an Electrical Designer for our Memphis, TN office. We have a solid reputation providing services to a diverse group of public and private clients with offices in five different states.

The Electrical Designer position will entail the development of electrical construction packages along with all subsequent support documentation. Work will not be limited to, but will include single line drawings, motor schematics, equipment and conduit layouts, as well as any interlock details. The individual should be able to perform field walk downs and verify work prior to design and participate and lead all levels of drawing package reviews. Drawings will be developed utilizing AutoCad.

This position will also interface with the client's team to support design efforts at a refinery. Work will include assisting with locating reference drawings, ensuring submitted packages meet the customers' design requirements and ensuring proper submission of final deliverables.

CORE COMPETENCIES

Safety:

- Comply with site safety rules and safe work practices, with special emphasis on Life-Saving Rules. Actively review and assess how design packages are designed to ensure that all safety standards are incorporated into the final design.
- Ensure that the design and execution of their respective projects introduces only acceptable risk to the refinery.

Environmental:

- If applicable, work with the environmental engineering group on all projects to ensure that all applicable rules and policies are met.

Reliability:

- Actively encourage participation of refinery reliability engineers in the design and quality check processes to ensure good reliable design.

Productivity:

- Maintain a high level of personal productivity. Be able to define and maintain personal metrics in regard to deliverables to project management and end users.

Work Quality:

- Provide continuous review of project designs and actively encourage project team members to review design packages throughout the whole design process to ensure the best engineering practices related to quality are maintained.

Communication:

- Provide accurate and timely communication with respect to project management and team members.

QUALIFICATIONS

- At least 8-10 years with a minimum of 3 in a refinery or heavy industrial plant environment.
- Candidate must be proficient in AutoCAD and Microsoft Office applications.
- Candidate must possess strong organizational skills and attention to detail.
- Candidate should be highly motivated and work well with other disciplines.

We are driven to be the best that we can be for our clients, our employees, and our communities. We care about our employees and consider them to be our most significant and valuable asset.

Fisher Arnold is an Equal Opportunity Employer, and we require all our new team members to work in a drug-free environment and submit to an initial screening.

Benefits: We offer a competitive benefits package including:

- 401(k) with Company Match
- Health, Dental & Vision Insurance
- 160 Hours Annual Paid Time Off
- 9 Annual Paid Holidays
- Flexible Work Week (Half-Days Fridays)
- Employee Assistance Programs
- Flexible Spending Account
- Life insurance

HOW TO APPLY:

Send your cover letter and resume in PDF format to **careers@fisherarnold.com** with "Electrical Designer" as the Subject Line. All correspondence regarding your application should be transmitted via email; no phone calls please. We look forward to hearing from you!
